Home: (Cyprus)

ABOUT ME

I'm a Software Engineer with a background in automation and AI integration, with experience across software development, test automation, and Non-functional testing.

I'm focused on the intersection of AI and software engineering, integrating AI into existing workflows to make them smarter, more efficient, and scalable, and I'm always looking to expand my knowledge and work on projects that combine my experience with new technologies to create outstanding solutions.

WORK EXPERIENCE

TSYS / FIS – Nicosia, Cyprus

Automation Engineer

[15/01/2024 – Current]

- Developing and maintaining automated testing frameworks to support software quality and delivery.
- Performing non-functional testing to ensure performance, scalability, and reliability.
- Exploring and integrating emerging technologies, including AI, into existing workflows.
